GERMANY IS NO MENACE TO EUROPE

People Have No Use for Militarism and Are But Poorly Fed

London, May 28.—I am rather optimistic regarding conditions in continental Europe, though superficially things look pretty black.

In the first place I do not believe Germany could be a menace for at least a generation. This, owing to the fact that the German people have at present no use for militarism, and they are badly undernourished and demoralized.

I was all through the extraordinary Ruhr rebellion wherein no one seemed to know what they were really fighting for. My impression was that each rebel was out solely to kill soldiers. This seemed to be a matter of revenge for the years of military despotism, and further the mentality of the average German rebel did not seem to go.

Of course, the old regime would love to try it over again, but this time the people would not fall. Even more important is the malnutrition of the people. In any German crowd four out of five faces give the impression of undernourishment. The people prove it by their lack of vigor and general listlessness. Such people are incapable of any military advance.

According to medical opinion, the youths are undernourished at the age of puberty, never to regain their full stature. It would seem the German people could not be dangerous to the peace of Europe for many years. Conversely, they have not the vigor to produce the indemnity of the allies, especially that which France desires. We cannot blame France for her attitude. She has suffered more than any land and has felt the full weight of German brutality. Yet I cannot believe her present attitude is altogether right. Marshal Poch is a military genius, but conservative, even perhaps monarchist, and his aim is to maintain the French military spirit. He, of course, in the case of the military aims of the Ludendorff party, but he cannot feel entirely sincere in his expression of fear of what the Germans may try to do.

The military party is to the fore in France, partly because reactionary Royalist generals, such as Poch, Castelnau, Mangin, were largely the ones to make good in the war, and their influence is tremendous.

France itself is slowly struggling back to health. Belgium, however, is a country which has shown the most extraordinary recovery. The Belgians are all working hard and wear the general air of prosperity. One thing struck me particularly in Germany. The Germans have but one hate left, it is for France. They are friendly and even cordial to Americans and Englishmen, but they hate the French. They have met an intelligent German woman on the train. She immediately began to attack the French, and she was a native of Germany. I remonstrated, saying the English were the chief blockaders of Germany.

"That's true," she replied, "but England was always the catspaw of France."

Truly the Germans are short on memory. Only three years ago, they stated they really loved the French, poor France, betrayed by perfidious Albion. German emotions seem attached to a whirligig.

OIL PROSPECTOR IN PEACE RIVER HAS ROUGH TIME

Winnipeg, May 27.—By chewing moccasins leather and the hides of game, the meat of which he had consumed previously, J. L. Laycock, formerly an accountant at the city hall, managed to subsist for years in the Peace River valley, where he had broken through the ice of the river. He told the tale of his hardships during ten years of his life in his room at the Royal Alexandra hotel, Tuesday.

Laycock said he had made a final attempt to get out of the valley several months ago, and as a result had been enabled to make his first trip to civilization in ten years. He had bored wells in hundreds of places and had struck oil, but it had run off into the river on the strata of slate which lay just underneath the surface. Recently he located a well which the oil came to the top of the earth, he said.

He left Winnipeg for his claim, but will return in a few weeks. He has more than 500 photographs of the region, some of which illustrate the hardships he underwent.

TEN BUSINESS COMMANDMENTS

1. Thou shalt do thy work even as if this business were thine own, and mayhap some day it may be.
2. Thy shalt not bear false witness against thy labour, thy brain is thine to use, to get thee full results from efforts expended.
3. Remember that thou keep busy the whole day long, for in six days we move Heaven and earth and all that in them is, and rest the seventh day.
4. If thy temper riseth get thee to the water bucket, for no man doth good business in the clutch of anger, nay, not the boss himself.
5. Thou shalt not murder the reputation of those who go against thee in business, for this be the way of little souls.
6. If that man would pump thee dry concerning that which is thine own work, let the words be YEA, YEA, and NAY, NAY, so that having finished he knoweth less than before.
7. Boast not, lest thou grow so great as not to see the gold at thy feet.
8. Thou hast but one face, and see that it be the same to him who hath as to him who hath not.
9. Fear not, and fret not thy soul with thoughts of sorrow. Enough to do there is, this very day.
10. Take not of wrong liquors when thou hast a great task to do, lest they betray thee. Neither take of them when thou hast naught to do, lest they make thy labour in vain.

HIS LIFE RUINED BY DYSPESIA

Until He Tried "FRUIT-A-TIVES"
The Wonderful Fruit Medicine

MR. FRANK HALL
Wyevale, Ontario.

"For some two years, I was a sufferer from Chronic Constipation and Dyspepsia."

I tried every remedy I heard of without any success, until the wife of a local merchant recommended 'Fruit-a-tives'.

I procured a box of 'Fruit-a-tives' and began the treatment, and my condition commenced to improve immediately.

The Dyspepsia ceased to be the burden of my life as it had been, and I was freed of Constipation.

I feel that I owe a great debt to 'Fruit-a-tives' for the benefit I derived from them."

FRANK HALL.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

OLYMPIC TRIALS FOR PROVINCE

Calgary Army and Navy Veterans' Association will hold the Provincial Championship Track and Field Meet on June 23rd.

Sanction has been received from the Alberta Branch of the Amateur Athletic Union of Canada for the Army & Navy Veterans of Calgary to hold their annual track and field sports in Calgary on the 23rd of June next, at the C.P.R. Athletic Grounds, 13th Avenue and 6th Street East. These sports will be the first of a series of provincial championships of Alberta. Competitions will be held in the following events: 100 yds., 220 yds., 440 yds., 880 yds., 1 mile, 1 1/2 miles, 2 miles, 3 miles, 4 miles, 5 miles, 6 miles, 7 miles, 8 miles, 9 miles, 10 miles, 11 miles, 12 miles, 13 miles, 14 miles, 15 miles, 16 miles, 17 miles, 18 miles, 19 miles, 20 miles, 21 miles, 22 miles, 23 miles, 24 miles, 25 miles, 26 miles, 27 miles, 28 miles, 29 miles, 30 miles, 31 miles, 32 miles, 33 miles, 34 miles, 35 miles, 36 miles, 37 miles, 38 miles, 39 miles, 40 miles, 41 miles, 42 miles, 43 miles, 44 miles, 45 miles, 46 miles, 47 miles, 48 miles, 49 miles, 50 miles, 51 miles, 52 miles, 53 miles, 54 miles, 55 miles, 56 miles, 57 miles, 58 miles, 59 miles, 60 miles, 61 miles, 62 miles, 63 miles, 64 miles, 65 miles, 66 miles, 67 miles, 68 miles, 69 miles, 70 miles, 71 miles, 72 miles, 73 miles, 74 miles, 75 miles, 76 miles, 77 miles, 78 miles, 79 miles, 80 miles, 81 miles, 82 miles, 83 miles, 84 miles, 85 miles, 86 miles, 87 miles, 88 miles, 89 miles, 90 miles, 91 miles, 92 miles, 93 miles, 94 miles, 95 miles, 96 miles, 97 miles, 98 miles, 99 miles, 100 miles.

Before the final trials for the Olympic games, which will be held in the east, should prove very attractive to track and field athletes. Olympic champion Walter Knox, who was in the city last week, was anxious to have these provincial championships of Alberta. Competitions will be held in the following events: 100 yds., 220 yds., 440 yds., 880 yds., 1 mile, 1 1/2 miles, 2 miles, 3 miles, 4 miles, 5 miles, 6 miles, 7 miles, 8 miles, 9 miles, 10 miles, 11 miles, 12 miles, 13 miles, 14 miles, 15 miles, 16 miles, 17 miles, 18 miles, 19 miles, 20 miles, 21 miles, 22 miles, 23 miles, 24 miles, 25 miles, 26 miles, 27 miles, 28 miles, 29 miles, 30 miles, 31 miles, 32 miles, 33 miles, 34 miles, 35 miles, 36 miles, 37 miles, 38 miles, 39 miles, 40 miles, 41 miles, 42 miles, 43 miles, 44 miles, 45 miles, 46 miles, 47 miles, 48 miles, 49 miles, 50 miles, 51 miles, 52 miles, 53 miles, 54 miles, 55 miles, 56 miles, 57 miles, 58 miles, 59 miles, 60 miles, 61 miles, 62 miles, 63 miles, 64 miles, 65 miles, 66 miles, 67 miles, 68 miles, 69 miles, 70 miles, 71 miles, 72 miles, 73 miles, 74 miles, 75 miles, 76 miles, 77 miles, 78 miles, 79 miles, 80 miles, 81 miles, 82 miles, 83 miles, 84 miles, 85 miles, 86 miles, 87 miles, 88 miles, 89 miles, 90 miles, 91 miles, 92 miles, 93 miles, 94 miles, 95 miles, 96 miles, 97 miles, 98 miles, 99 miles, 100 miles.

WEDNESDAY, JUNE 2nd, 1920.

THE COMMUNITY BANQUET

The community banquet, last Thursday night, shows that there is a wave of enthusiasm sweeping over the city with regard to a better feeling among our business men.

That is a good thing for Red Deer. We cannot have too much of that feeling. When we all begin to think of the other fellow, we have arrived at a point where we grasp one of the greatest principles of the brotherhood of mankind. We are informed by some that a lot of scuffling goes on among the citizens of Red Deer. We absolutely know that such is not the case. But we believe that for real friendliness and four-square there is not a place in Canada with the population of Red Deer that can surpass us.

THE PUBLIC MEETING.

On Tuesday evening, last week, a public meeting was called to discuss the C. N. R.'s entry into the city. There was a large attendance of citizens, and the general tenor of the voice of the meeting was to the effect that there was no reason for the meeting being called, and no action was taken. The meeting was called on the assumption that the railway might build stock yards at the north end of the city. Such a thing could not be thought of. The meeting did not think there was any ground for supposing such a thing. No request had been made to the city, and the railway had selected and had been allowed a site for stock yards near the exhibition grounds. There was no reason to believe that any other place was contemplated as yards to be used by the company. The meeting thought it was time to kick when such a thing occurred. The ratepayers would not entertain for a moment the idea of locating the terminus of the railway on the north side of the river.

INDIRECT FIVE OF WORDS

(Edmonton Bulletin)
Dr. Clark, M.P., has been telling Parliament in his usual forceful and eloquent way that the country ought to have free trade. Unfortunately he is doing the talking for the purpose of putting up the low tariff vote between Liberal and former close candidates and thus making as certain as can be that the high protectionists will win when the elections come round. Eloquent pleas for free trade which result in keeping the tariff will never bring down the cost of living. The doctor is the silver-tongued parrot for the high tariff crowd.

THE NEW TAX

The Government is anxious to know how the west feels with regard to the new taxes imposed. They are learning fairly fast. As a matter of fact, the people of the west are strongly antagonistic to the idea. They are hardly over the trials and tribulations caused by the income tax, and they were hardly prepared for this extra dose.

But the cost of the war has to be raised in some manner, and the people of the west will not stand for an increased tariff, so that other plans have to be devised to raise money to pay off our enormous debt, as the government realize the fact that the west is growing in power and influence every day, and cannot, if possible, be antagonized.

The Liberal party has always for the last half a century played the game of the low tariff party, and they have always had the support of free traders. But Sir Wilfrid Laurier, learning experience by Sir Alexander MacKenzie, who reduced the tariff and was thrown out of power by Sir John A. Macdonald and his national policy in 1878, did not reduce the tariff two per cent. the entire sixteen years he was in power, and still he went out of office in 1911 presumably on a low tariff issue.

Sir Robert Borden, on the other hand, has reduced the tariff more than Sir Wilfrid Laurier ever reduced it. Still he and Conservatives are called the high tariff party.

The Unionist Government have got to raise a revenue somehow to run the country, and as the people will not stand for a higher tariff, there is but one other way, and that is direct taxation. The income tax is a beginning, only a beginning. Many other ways will have to be devised to raise funds. If the people stand for it, then the tariff may be reduced to a point to suit the people, and the main plank in the Liberal party's platform, as well as in that of the Farmers' Progressive party, would be knocked out.

The people cannot get over the idea that it is the hard-working middle class who will have to pay the price. For instance, cheap cars are taxed as well as the higher priced cars. Yet a car of some kind is almost a necessity with the farmer now, and in almost every instance it is the moderate priced auto that is being purchased by them. The west is a country of great distances and the car bridges that distance as nothing else has been able to do. This car has hardly been understood by the people of the east.

But the point is that money has to be raised in some way, and it is not by a tariff, then by direct taxation, and we feel that many of these who have kicked vigorously at what they call the high tariff will be the most progressive at the new taxes imposed in another way.

SAFEGUARDING THE LIVE STOCK INDUSTRY

At present we are finding two of our great industries coming into closer relationship with each other than ever before. These are the live stock industry and the meat packing concerns. There is now a better understanding between the two for they realize their mutual interdependence on each other. Between these two industries comes a most important factor which operates in the best interests of both, that is the live stock yards. These yards are now maintained at live stock shipping centres and live stock markets in Canada, and since August, 1917, they have been under the control of the Dominion Department of Agriculture through the Live Stock Branch. At that time the regulations prescribed under the Live Stock and Live Stock Products Act were passed, and since then the construction, equipment, maintenance and operation of stock yards are subject to the approval of

the federal Minister of Agriculture. Clearly identified with live stock yards are the live stock exchanges operating on all markets and setting the rules for the conduct of business among the commission agents and dealers. The objects of the Exchange are to establish and maintain a commercial exchange for the benefit and furtherance of all interests directly connected with the buying and selling of live stock, to establish uniformity in the trade, and to provide a speedy adjustment of business disputes. A series of articles on live stock yards and exchanges appear in the January number of The Agricultural Gazette. These articles present the facts regarding the operation of stock yards. It is pointed out that the stock yard is a semi-public institution operated as a public market and its business is the warehousing of live stock. Its one great advantage is that it provides a medium where the men with live stock to sell find buyers and buyers find live stock.

NEWS WEEKLY SERMON

By Rev. G. D. Armstrong

Verily, verily, I say unto thee, except a man be born again, he cannot see the Kingdom of God. John 3:3. These words of Jesus to Nicodemus have an unending interest for us, inasmuch as the truth expressed applies to mankind in all ages. With his eyes blinded by ecclesiasticism, and his mind accustomed to certain forms of worship, it was very difficult for Nicodemus to recognize the truth when it was uttered not in the usual terminology of religion but in terms of life. Lacking in power of imagination and in poetic fancy, the mind of the Pharisee could not grasp the ideas which Jesus expressed. The Master spoke to him in a language he was not accustomed to, and very slowly could he be made to see the truth, clothed in garments of new thought. Very much misunderstanding has occurred through our inability to see behind the words, which we use to convey our meaning to each other, to the thought we wish to express.

It is very interesting to find today in some churches a strong desire for a return to the primitive. The truth expressed in such a way that they can assimilate it without much effort upon their own part. They regard two sermons a Sunday as a heavy strain upon the mind of the preacher, and altogether too heavy a burden for the congregation to bear. Undoubtedly one sermon carefully prepared and thoughtfully listened to is better than "much speaking" and a maze of confused ideas, but one cannot help thinking that one cause, at least for the desire for ritual, is an inherent dislike for anything that disturbs our rest or agitates our spirit. The priest is always at war with the prophet in us. The words of Jesus expressed truth with refreshing clearness and simplicity, but the mind of Nicodemus blundered amazingly in trying to understand it. His mind had been so long accustomed to think of Judaism as the kingdom of God—to think of religion as obedience to the regulations of Jewish worship that it was difficult for him to see that it had a significance vastly greater than he had dreamed. Professionalism had made religion artificial and lifeless. The words of Jesus related religion to life. Its dwelling place was not in the temple or the church but in the soul of man.

The words of Jesus teach us that while the origin and destiny of the life of the spirit is hidden in mystery the experience of religion is normal in human life. It is as natural to be born again as it is to be born. The life of man is not only physical, it is mental, moral and spiritual. We learn to talk in terms of the voices of others; we learn to act by observing the deeds of others; we learn to love by being loved. But all these powers are not acquired merely by imitation. There is a latent energy in us which we must learn to channel, of life, the means of grace provided.

Conversion may take place as gradually as the dawning of a new day, or it may be as sudden as a lightning flash out of a stormy night, or it may be as sudden as a lightning bolt burst forth from the clouds. The lightning flash may awe us with a sense of marvellous power, but there is infinitely more power in the rising sun. Unfortunately we have emphasized the abnormal experiences of religion to such an extent that we have been in danger of ignoring every day religious experience, which are, though commonplace, not less divine. We have associated conversion so much with special evangelistic services that we have almost ceased to look for it on any other occasion. Too often our evangelistic methods have been formal, artificial, mechanical and superficial.

The soul's awakening is not a mechanical process. It is the response of the life of man to the love of God; it is the dawning of powers that are inherent in our nature, under the influence of the Divine Spirit. The forces which are at work for our redemption assert themselves continually and the operations of the spirit are manifold. Undoubtedly conversion usually takes place in the adolescent period under the influence of the ferment of growth and development. It is reasonable to believe that in very many cases this change has not been clearly defined in the mind of the individual himself and even more often it has not been understood by others. "Man looketh to the outward appearance but the Lord trieth the heart." Often the soul awakens while we are in the experience of parenthood and the responsibility which this involves, we learn to interpret life in the light of God's Fatherhood. The essential feature of conversion is that we came to recognize the laws of God in our lives and yield ourselves in obedience to them. We may not know when we will feel the flame that in the soul resides. Our spirit moves and is still, it moves from rest into the light. Yet deeds in hours of insight will be Art in days of gloom fulfilled.

M. D. OF GOLDEN WEST NO. 371

At the third regular meeting of the Council, held at Sylvan Lake on May 29th, all the members of the Council were present. Minutes of the last meeting read and approved. Mr. A. Gehrke attended the meeting and asked the Council to have fences removed from road allowances. The secretary was instructed to notify J. H. Kidwell to remove fence off road allowance between Section 2, Township 35 and Section 35, Township 37 in Range 28, West of the Fourth Meridian, and also to notify M. J. McDonald to remove fence off the road allowance between Sections 34 and 35, 37-27-4. Correspondence was read from W. E. Payne explaining in considerable detail action taken in regard to a ditch on S.W. 23-32-27-4, and also enclosing copy of the agreement arrived at in connection with the matter which was approved by the Council. Mr. Payne complimented Mr. Rogers for the manner in which a difficult problem was settled satisfactorily. A petition was received from a number of the ratepayers asking that a road between Moreau and Peterson's place be opened. After due consideration and explanation of conditions by Mr. Rogers, it was decided, on motion by Councillor Olson, that in view of the agreement referred to, no action should be taken in the matter.

A letter was read from Payne & Graham, with further reference to refund of taxes with respect to the N. W. 23-32-27-4. Action in the matter deferred pending Statutory Declaration that taxes had been paid as stated. A resolution was resolved from the Crossroads Union, No. 30, recommending that a road be opened south from Peterson's and Moreau's to North-Red Deer. It was pointed out by Councillor Rogers that there was now a good surveyed road serving territory referred to in the petition. It was accordingly moved by Councillor Olson, and agreed to unanimously, that in view of a road now serving that territory, and the great cost of opening up a new road, it was not advisable to take any action in the matter at present. Letters were received from the Department of Municipal Affairs regarding restraining animals at large, and approving appointing J. E. Welton as auditor. Letter read from Mr. W. J. advising regarding washout of approaches to a bridge in Division No.

2. Mr. Rogers (Reeve) reported a case of feeble minded child in the district, and was authorized by the Council to make proper arrangements for the care of same. A resolution was moved by Councillor Rogers recommending the closing of the trail running from the South boundary to the N.E. corner of Section 34-32-28-4. The secretary was instructed to send a copy of the same to John J. Gaetz, M.P.P.

Bills and pay sheets to the amount of \$317.07 were ordered paid. Moved by Mr. Rogers that the next meeting of the Council be held at Sylvan Lake on Saturday, June 10th.

DAY HARDWARE CO.

Making a Flat World Round

When Columbus set out to reach India

by sailing westward, he met with opposition and ridicule. He believed the earth to be round.

Wise men held that it was flat—that Columbus was mad—and that he'd fall off somewhere if he departed from established beliefs.

But Columbus' belief found him a continent and made him blessed of memory.

The Business World is flat to some men

Their profit-bearing shores of Opportunity stretch only so far as their grandfathers trod. Custom, superstition and apathy have set them confines which they may not pass.

For instance, they believe the business year is a flat one—not an all-year round of trade, with East joining West, with Spring merging into Autumn—but just two distinct seasons, with sawed-off edges gaping into space.

They confine their activities to a Spring trade and to a Fall trade. To them there is no intervening continent with stores of waiting wealth. Their world is flat. They have not explored the mid-year months of Summer trade. June, July and August are never-never land.

Surely this conception of Summer as a "dull" season is as fallacious as the delusion that the earth was flat. People have just as much money in the hot weather and spend quite as freely as in Spring and Fall. Granted that they are not buying skates and snow shovels in August, yet they are buying staple articles. Furthermore, they have an eye on luxuries and comforts they are counting upon purchasing in the Fall.

The modern Columbus has discovered this

Summer trade—this golden West lying between the known continents of old beliefs. Departing from established habit, many have made their energies and their advertising an all-year-round proposition.

Keeping up Advertising during the Summer months not only links your Spring and Fall, but produces rich harvests from the Summer months themselves.

Keep up your Advertising in the News and get best results.

The News Publishing Co.

CITY COUNCIL

At the meeting of the City Council on Tuesday evening there were present: Mayor Lord, in the chair; Ald. Stone, Callahan, Moyes, Broughton, White, Turnbull and Commissioner Stephenson.

Correspondence

The Solicitors wanted more complete plans before making application to Railway Commission re crossing over C.P.R. at Victoria Avenue.

The Solicitors presented account of \$102.10, balance of fees in connection with old application to Public Utilities Commission re Western General rates.

The Red Deer City Football League lodged a challenge with the Mayor for the Citizens' Cup which is supposed to be played for annually at Red Deer on Dominion Day, July 1.

The League could not reach the old Dominion Day Sports committee. President Patterson said the Cup was the finest in the Province.

The Commissioner suggested to the League a Sports Day for July 1, 1920, at which the Cup could be put up.

Chief Anderson had had complaints of the sidewalks being made offensive and pedestrians incommenced because of animals being tethered on strips of grass near the sidewalks.

The Kennel Farm Agency asked permission to cross Fifth St. northwest with a spur running parallel to and 25 feet west of the present Stephenson spur, and on a grade level with the point from which the new spur would leave the lead track.

They had already graded a road just east of the C.P.R. houses in order to give access to the ice house. The Company had purchased the greater portion of Industrial Place for the purpose of building a grander building.

Dr. Dick, Superintendent of Hospital for Returned Soldiers, asked the Council to fix up the road on the site of the cemetery. If the city would grade it, he would keep it dragged and clean up the brush.

Commissioner Stephenson resigned as Building Inspector. The Commissioner stated that he had no knowledge whatever of the building trade and was not competent to inspect buildings.

McDonald & Martin, at the old Hewson barn, were appointed official poundkeepers with a new schedule of fees as follows:—One mature animal \$2.00 per day; five head or over, \$1.50 per day; for young stock, 50 cents per day.

The Financial Post offered a quarter-page advt. for \$75 in its annual government and municipal review number. Filed.

There would be no levy on the city by the Workmen's Compensation Board for the April-June quarter, as there was sufficient funds on hand. Filed.

Commissioners' Report
The Commissioners brought in the following report:
Foreman Jones has been repairing sidewalks, cleaning gutters, fixing crossings and improving the streets as much as possible, and will continue this work. The new road into Wassau Park from the A.C.R. road will require a little work to make it passable, as the floods in the creek damaged it some.

We recommend that the plank walk on the east side of First Ave. East between Third and Fifth Streets North be taken up and a cinder walk laid there.

The intake was fixed so an ample supply of water is assured should the river rise much again and block the intake pipe.

We are daily receiving complaints of horses and cattle running at large within the city limits and damaging boulevards, lawns and gardens. The poundkeeper has gone out of business and the pound was necessarily closed, and it is impossible to get anyone to handle it with the present tariff of charges for feeding. Chief Anderson reports that he can get a man to act as poundkeeper if the fees for feeding are doubled, and we submit a bylaw providing for a doubling of the fees for your consideration. This bylaw can be amended lowering the charges when the price of feed returns to normal.

We had an application to purchase some blankets but have none for sale as all surplus blankets, pillow slips and linen was sent to the Memorial Hospital.

We submit accounts for your authorization to pay.

W. E. LORD, A. T. STEPHENSON, Commissioners.

Adopted.

Accounts

Payment of the following accounts was authorized:—

News Publishing Co., \$13.30; Alberta Government, phone, \$7.15; A. Fyfe, \$24.46; E. H. Anderson, grading, \$500; Merchants Bank, \$1767.44; Bruce Cox, \$10; J. Duncan, B. W. G. Lord Co., \$20.65; J. Malcolm Co., \$182.90; A. Wainwright, \$2; Secretary Women's Institute, \$30; E. J. Walker, \$4; Payne & Graham, \$102.10.

Assessor's Special Report

Regarding the question of rebate to the Western General Electric Company Limited for 1920 taxes for part of the year, as a result of the Company having sold its telephone business to the Provincial Government, I beg to report as follows:—

I am informed by the Deputy Minister of Telephones that the value of the telephone exchange and property within the City of Red Deer is \$34,315.16, and of one half interest in the pole lines \$1,560.64, making a total value of property within the city limits of \$35,875.80.

I am further informed that nothing was paid for the franchise by the Government. The assessment on the property of the Company for the year 1920 was \$102,000, of which \$2,500 was for the land where the powerhouse is located and \$100,000 for value of plant and equipment, including the telephone system within the city limits. The taxes paid by the Company for the year 1920 was \$1,291.50. Based on the Government valuation of the telephone system within the city limits the proportion of taxes on the telephone system would be \$44.41 for the year. The Company is liable for one

fourth of this so that on the above figures should be \$370.75.

The amount of taxes paid on the special franchise was \$1,000, but as no value was placed on the telephone franchise by the Government, nor was anything paid for the franchise, it does not appear to me that any rebate should be allowed on the special franchise taxes.

The assessment of the special franchise was \$30,000.00 for the year 1920, being at the rate of \$10,000 per year for the first three years of the period covered by the franchise, and if the Company contends that their franchise is not worth that much the question of a rebate of part of this tax might be considered by the Council.

Respectfully submitted,
A. T. STEPHENSON, Assessor.

After some discussion, the report was referred to the solicitors for their opinion on the matter.

Ald. Callahan and Stone moved that the question of Mr. D. Ross' application for permission to erect an addition to his present building, be reopened.

Lost on a division, Ald. Turnbull, Broughton and White voting against it, and Ald. Callahan, Stone and Moyes voting for the motion. The Mayor voted against the motion, and it was declared lost.

Council adjourned at 9.45 p.m.

RAISE \$500,000 FOR FORWARDING COLONIZATION

Toronto, May 25.—The Western Canada Colonization association announced it has succeeded in raising five hundred thousand dollars towards the financing of its project of settling 20,000,000 acres of vacant prairie land.

In a remarkably short space of time the association has thus secured one-third of its total objective of \$1,500,000.

The \$500,000 has been subscribed by outstanding individuals and corporations in both Eastern and Western Canada. The cordial support extended to this western project by the business and financial leaders of Ontario and Quebec is one of the most striking features of a remarkable movement.

The prospect is that seven hundred and fifty thousand dollars, or one-half of the total sum required to carry out the undertaking, will be subscribed by the end of the present week, and that the whole million and half dollars may now be considered well in sight.

RAPE FOR PASTURE

Rape is one of the most valuable crops for annual pasture. It makes good feed for cattle, sheep or swine. It is easily handled, reasonably sure to grow, and does not take long from seedling time till it is fit to pasture.

In experimental work at Brandon Experimental Farm, rape produced more pork per acre than any other annual crop tried and stood pasturing longer. It has also given excellent results with sheep, though comparative tests have not been made with them.

It is not quite so suitable for dairy cows on account of its strong flavor, but for young cattle and beef cattle it is very satisfactory.

Rape may be sown in early spring, if it is desirable for early pasture, or it may be sown at any time up to the middle of July, depending on when the pasture is wanted. When sown early it will be ready for use in about eight weeks, and as the season advances the time taken to grow to usable size shortens, till July sowing, which is fit to use in a month.

Land should be well prepared for rape, but the preparation is not especially different from that required for other crops. There should be a good supply of moisture, coming fairly close to the surface, and the seed bed should be fine and firm so as to start the small seeds.

For this dry climate rape is usually

best sown in rows far enough apart to cultivate, but if the soil is practically rich or well stored with moisture, it may be sown in ordinary grain drill rows six inches apart. The latter method produces a finer quality and greater quantity of fodder where conditions are favorable, but in dry soil there are too many plants for the moisture supply and all will be starved.

When it is sown in rows three feet apart, five pounds of seed per acre is ample. Where sown thickly twelve or fifteen pounds are needed.

Rape should be pastured as soon as it gets well grown. It should not be pastured too heavily, or the plants will be destroyed and the late growth lost. An acre of rape will easily carry twenty half grown pigs, or a proportionate number of stock, and if the growth is heavy it will carry more.

Rape should be used before it gets old and strong. A purplish pink color in the stems and leaves indicates that it is getting past the best feeding stage.

BY AEROPLANE TO PARIS.

A distinctly novel attraction has now been provided in the C.P.R. office windows at Charing Cross, an attraction which has been much admired by the crowds who have gathered to make inspection. The fine windows usually devoted to the exhibition of things Canadian is being occupied by an excellent model aeroplane of the Aircraft Transport and Travel, Limited, at Hendon, together with scientifically accurate models of various types of aeroplanes and airships.

Such a display in a railway and shipping office may seem rather unusual at first sight, but is really a sign of the times, also marking much enterprise on the part of the Dominion Express Company of Canada. Realizing the importance of maintaining a really "Express" service, if its name is still to be justified, the Dominion Express Company, the Premier Express Company in Canada, made arrangements to act as Passenger and Parcels Agents for the Aircraft Transport and Travel Limited on their London-Paris daily air service.

It is thus possible for other passengers or parcels to be booked for conveyance by aeroplane to or from London and Paris through any of the Dominion Express Company's offices in Europe, and these, in addition to London are to be found in important cities such as Liverpool, Glasgow, Manchester, Birmingham, Bristol and Paris.

The advantages of this arrangement are many, for the Dominion Express, holding as it does the exclusive right of shipping Express parcels over the entire C.P.R. system, as agents for the Aeroplane Service can ensure that an Express package scheduled to catch a certain ship actually reaches its destination in Canada in the shortest possible space of time. As time is money nowadays, more than ever it was, it is easy to realise what an important adjunct an Air Service is to an Express Company.

The time-table shows that only 24 hours is occupied on the journey to or from London and Paris—urgent letters are carried at 2 shillings and 6 pence per ounce over the ordinary letter rate.

Parcels for delivery in Paris on the same day have to be handed in at the London office of the Dominion Express Company, 62-65, Charing Cross, London, S.W., before 10.30 a.m. The parcels rates range from 15s. 6d. to 2s. 6d. per lb. according to quantity, while special rates are quoted for large and regular consignments. The single fare for passengers is 15 shillings which includes a car to convey the passenger to Hounslow, the starting point. The Dominion Express Company's officials at Charing Cross have every reason to believe that a large proportion of Canadian visitors to Europe this year will take advantage of the ease with which it is now possible to book seats for a real flying visit to the Continent through their office. In fact, if they so wish, a motor car can pick them up in Trafalgar Square, and in under three hours they can be walking along the Champs Elysees.

Blooming Railway Stations

Superintendent's Office at Outremont, P.Q.

Flowers are amongst the assets of the Canadian Pacific Railway. Flowers bloom in C.P.R. gardens at most of the principal stations from one end of the country to the other. There are flower beds outside the Algonquin Hotel at St. Andrews, on the Atlantic coast, and one of the most beautiful flower gardens in America blooms around the Empress Hotel in Victoria.

In the old days most of the pioneers were too busy opening up the unroaded ways to give much attention to the cultivation of flowers. Yet flower cultivation along the C.P.R. seems to have progressed with the commercial prosperity of the railway system itself, for it is now thirty-one years since one of the C.P.R. employees produced a few varieties of flower seeds in his own plot and distributed them amongst his friends at some of the stations— with the object of starting flower gardening along the line. The start was auspiciously made, and now the C.P.R. has a floral department with headquarters at Windsor Street Station, Montreal. Mr. B. M. Winograd is the horticulturist and forester.

Every year thousands of packets of flower seeds, bulbs, trees, shrubs, grass seed, and large quantities of fertilizers are distributed free of charge to station agents, section foremen, caretakers of round houses and employees living on the property of the company. The seeds that will

Flower Beds at C. P. R. Station, Kenora, Ontario.

flower along the railway in the summer and autumn are sent out in March. Full particulars for cultivation are printed on each seed packet. Bulbs for spring flowering are sent out in the fall.

Seeds and plants of the best kind are always provided. Standard flower seed packets contain nasturtiums, pinks, mignonette, sweet peas, pinks and kochia. Ferns and house plants are sent to large stations. An endless variety of perennials are distributed, and amongst the varieties of trees supplied are maple, birch, poplar, and catalpa. Shrubs include laurel leaf willow, sunae, berberis and weigela.

In all cases the cultivation of flower beds is done by the employees of the company, many of whom have become expert gardeners. On each

division of the C.P.R. prizes are given every year for the best display of flowers, and some of the products of gardens kept by the railway amateurs have won prizes at Canadian and United States floral exhibitions. During the last thirty-one years the encouraging influence of the C.P.R. flower growers has materially assisted in the inauguration of floral societies all over the country. Many of the railway officials are members of these societies. Flowers have improved the appearance of the railway stations, and inspired by the beauty of the stations, residents of the towns have planted flowers that beautify their homes. A little flower fame along the C.P.R. has even thrown the spark that ignited a fire of flowers.

MORE TIRE MILEAGE FOR LESS MONEY

When the Weaver service was established during the winter, the aim of Mr. Weaver was to give the public useful information and facts concerning preserving, maintaining, and protecting tires against unnecessary deterioration or loss through inexperienced operators. When you are in need of medical assistance you invariably consult a specialist, and, by virtue of the knowledge of the surgery the "Weaver Tire Service" may well be classed as tire specialists.

The present high prices of tires and tire accessories undoubtedly affects the cost of maintenance to a greater or less degree determined by the experience of the operator. Very few car operators enjoy sufficient tire knowledge to enable them to judge correctly between good or inferior grades. Like all commodities now placed on the market there are superior and inferior grades. And as the rate of consumption rapidly increases it tends to stimulate unscrupulous manufacturers to flood the market with cheap and inferior tires so that the inexperienced purchaser is in the dark as to the best tire to obtain for his particular needs. Also there are some dealers who will advise buying new tires instead of getting your old tires repaired at a fraction of the cost of the new ones. Mr. Weaver states without fear of successful contradiction, that nineteen out of every twenty tires that are put out of service by rim cuts, blowouts or the need of a new tread, can be successfully repaired if done by a competent workman.

There are two distinct types of tires on the market: 1st, tires made under the blowout system; and 2nd, tires made under the weaver system. We are behooved to state that the former are in the majority. The exceptional knowledge experienced by the "Weaver Tire Service" places them in a position to offer expert advice in regard to the right make, kind, and size of tires for your particular needs, and also as to whether the fabric in your old casing is in condition to justify repairs.

There is a deal of difference in tensile strength and durability in fabrics employed in the manufacture of tires. The durability and strength of the long sea island cotton contained in good tires is far superior to short cheap grades of southern cotton used in some makes. All tire factories grade and cut their tires and place them on the market as firsts and seconds, the large department stores buy up most of the seconds and sell them at a reduced price, but some of them are sometimes used by dealers in reduced sales and they cannot be told from new tires except by a tire expert. Mr. Weaver will cheerfully and freely advise anyone in regard to the different makes and grades, and the public may feel free in asking because it will be given in a courteous spirit. They are also anxious to instruct you in the use of tire savers, such as applying tire putty in the small cuts on treads which are a deadly menace to the fabric, causing separation and consequently a blowout, to the care of your rims when in bad condition causing such serious damage to beads, to the proper use of valve insides and caps, inner tubes, to the proper use of soapstone, outside boots, inside boots, tire plasters, air pressure gauges, and etc. And last the Weaver Tire Service are sincere in their belief that they can reduce your tire expenses by one-third to one-half by adding their service to your tires.

WARSHIPS READY FOR IRISH PORTS

Position in Ireland is Much More Serious Than Believed, and Something Will Break Soon.

London, May 30.—The National News says: The position in Ireland we understand is so grave that a number of warships are now being fitted out for dispatch to Irish ports. The situation is more serious than would appear from published telegrams, and startling developments are expected in the next few days.

HIGHLANDERS GO TO CORK
Queenstown, Ireland, May 30.—The Cameron Highlanders, recently ordered for service in Ireland, disembarked here today and paraded through the streets to their barracks. Guns and ammunition were transferred from the steamer to an admiralty trawler, which, with a number of the troops, proceeded for Cork.

BELFAST LABOR MEN AGREE
Belfast, Ireland, May 30.—The Irish trade congress has promised its full support to the Dublin railway strikers. This may lead to a repetition of the deadlock which occurred over the hunger strikers.

The announcement was made at a meeting of the National Union of Railwaymen. Mr. Farrell said the executive committee of the labor party has decided the light should not be kept with the railwaymen and dockers, but that it should be taken up by the whole of the working class of Ireland. He added the executive had instructed him to see that another delegate should go to England to interview the members of the "triple alliance."

MAIL TRAIN HELD UP
Skebereen, Ireland, May 30.—A mail train from Bantry to Cork was held up at Durrus road station by armed men today. The men took the mail bags and decamped in an automobile.

PLED BEFORE VILLAGERS
Belfast, Ireland, May 30.—Early Sunday a party of armed raiders in automobiles visited Gully Backey, county Antrim, and started to burn the police barracks. The raiders fled however when the villagers turned out in a body to oppose them.

CUSTOMS OFFICE BURNED
Castletown, Ireland, May 30.—The Berhaven customs office was destroyed by fire this morning. An adjoining steamship office building had a narrow escape from a like fate.

GREENWOOD LEAVES IRELAND
Dublin, May 30.—General Sir MacReady, military commander, and Sir Hamar Greenwood, chief secretary for Ireland, left Dublin today for London. It is understood that they have been summoned to attend a meeting of the cabinet at which the policy with regard to Ireland is to be discussed on Monday.

DESTROYED SUNDAY PAPERS
Dundalk, Ireland, May 30.—Opposition to the Sunday newspapers continued. A dozen armed men today seized all the newspaper parcels from Dundalk and burned them. A policeman attempted to intervene but was disarmed.

PENHOLD EARLY CLOSING

To the Editor of The News.

Sir,—We farmers, who do our shopping after 6 p.m., should get together and get the Penhold stores to keep open late as usual. It is mighty convenient to be able to get your goods at 8 or 9 p.m., when chores are all done and you can run in your car. I, for one, like to be able to get my goods when I want them, and I can say I have bought goods in Penhold at 11:50 p.m., so why this jump to 7 p.m. Late hours is giving us service, and the stores are for service, so why cut the service down. I would like to hear what others think about this.

Yours truly, A FARMER.

A CHILLING PROSPECT.

The United Mine Workers have presented the operators of the province with a demand for another 13 per cent. increase in pay. If it is granted the miners will be drawing 27 per cent. more pay than last October. If it is not granted they will likely go on strike, and as the Government has given them a monopoly in the right to dig coal they are in a position to make a strike effective. The consumer, it appears, may as well be prepared to pay 20 per cent. more for his coal next winter than he paid last. —Edmonton Bulletin.

PUBLIC NOTICE

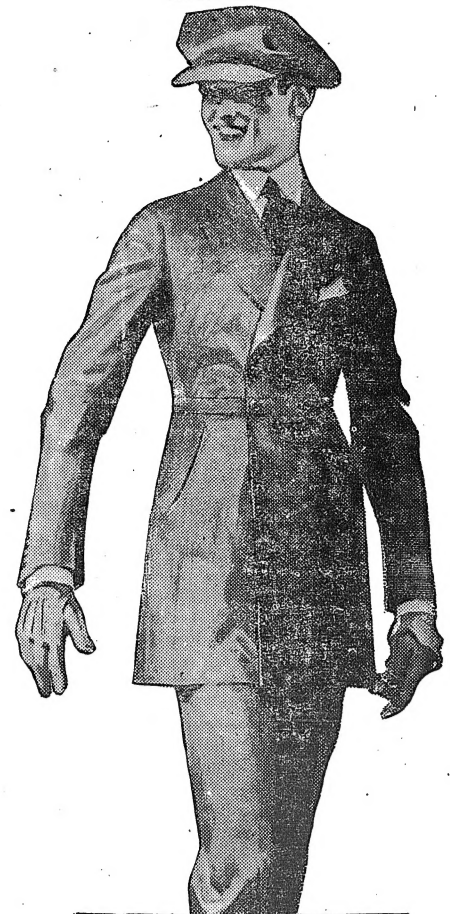

WE, the undersigned Merchants of the City of Red Deer, do hereby agree to close our places of Business at the hour of 12 o'clock (noon) on each and every Wednesday, excepting any one week in which another Legal holiday occurs, commencing on Wednesday, the 12th day of May, and continuing through the following months up to the 13th day of October, making five months in all:

Plain White, 32 inches wide, per yard 60¢

Plain White, 36 inches wide, per yard 75¢

Striped Flannelettes in assorted Pink and Blue stripes, 33 inches wide, per yard 65¢

CANADA'S PART IN
THE GREAT WAR

(The Essay awarded the Desmond St. Clair George Memorial Medal in Grade 9 competition under the auspices of the I.O.D.E.)

War came upon us without warning like a thunderbolt from a clear sky. Our people were essentially non-military, fearing no aggression from a peace loving neighbor, and ignorant of the danger from Germany. Yet in seven weeks Canada assembled an army which, a few months later, was to save Canada, on the battlefield of Lens.

Within two months of the outbreak of war between Great Britain and Germany, the Dominion of Canada concentrated, armed, and sent to France a force of 25,000 men. This force was by far the greatest body of soldiers that had ever crossed the Atlantic at one time. Within a fortnight the largest camp that had ever been seen on Canadian soil was established at Valcartier with a sanitary system second to none that any camp has ever seen. From Valcartier the Division was moved to Camp Borden where it embarked for England on October 3, 1914. After three months additional training in England it landed in France. The second division was formed immediately and landed in France on September 14 when the Canadian Army Corps was formed. The formation of third division was authorized just before Christmas 1915, and the division was in France early in 1916. The fourth division joined the Canadian Corps in August 1916. The Canadian Cavalry Brigade was in France in 1916. After the completion of the Canadian Corps, the policy of the Dominion was to maintain a small number of divisions and keep them in full strength.

Thus did Canada answer the call. From the workshops and offices of her cities, from the lumber camps of the west, from the farms and orchards of the east, from the slopes of the Rockies, from the shores of the Hudson's Bay, from the mining valleys of British Columbia, from the prairies of the Yukon, and from the reaches of the St. Lawrence, the manhood of Canada hurried to arms.

They sought not the glory of conquest nor the rape of freedom, nor the loot of sacked cities, nor selfish ideal led them leave their homes and the comforts of civil life for the sufferings of war and the risk of death. They came forward free men and were unconstrained, with a simple resolve to lay down their lives, if need be, in defence of the Empire, the very existence of which, as they swiftly saw, was menaced by the most formidable military combination which had ever sprung to arms. The first contingent was born partly of the glory of adventure, but more of the spirit of self-sacrifice, and this spirit showed the deepest emotions of the Canadian people—their love of country, of liberty and of right. The total number of men enlisted in Canada from the beginning of the war to November 19, 1918 was 595,441 men.

At the outbreak of war in 1914, the Canadian Government possessed two small naval vessels, the Niobe and the Rainbow. The Rainbow, which was ready for service, was sent to the Pacific station, as far south as Panama, and captured several ships carrying contraband of war. After the entry of the United States in the war she became a depot ship on the Pacific coast. The Niobe, made ready for sea in September 1914, and remained in commission for six years. She afterwards became a depot ship at Halifax. Several smaller vessels were taken over by the Naval Department and armed and fitted for patrol duties on the Atlantic coast. The number of enlistments for naval service were 2,814 men.

The number of men enlisted with the Royal Air Force were 12,902 men. In 1915 the First Division greatly distinguished itself in the second battle of Ypres. The battle which raged for so many days in the neighborhood of Ypres was bloody, even as men appraised battles in that callous and life engulfing war. On April 22 the Canadian Division held a line of 5,000 yards connected with French troops to the north-west. At 5 o'clock in the afternoon a surprising gas of great intensity was projected into the French trenches, and compelled them to retreat. This weakened the Canadian lines as they had to extend their line over the ground the French were forced to vacate. The German assault on the Canadian lines lasted all night and all day of April 22 and 23, before relief came. The battle lasted till May 4 during which the loss of life was so great that the battlefield is known as the graveyard of Canada in Flanders. This graveyard is very large. Those who lie there have left their mortal remains on alien soil, but to Canada they have bequeathed their memories and their glory.

"On Flanders eternal camping ground. Their silent tents are spread, And glory guards with solemn round The bivouacs of the dead."

Other notable battles were fought at Passchendaele and Ginchy in May and June of 1915. In 1916 the Canadians were heavily engaged at St. Eloi and Sanctuary Wood in April and June. In September, October and November the four Canadian divisions fought in the battle of the Somme, especially distinguishing themselves at Courcellette and Mouquet Farm. In 1917, the Canadian troops bore the largest part in the taking of Vimy Ridge in April, and of Arras and Fresnoy in April 23 and May 1, and fought with great success in the advance on Lens and the taking of Hill 70 in August. They were again heavily engaged around Passchendaele in October and November. The battle of Cambrai began on September 27, 1918, and on October 9 the Canadians, after heavy losses, took Cambrai. In the final stage of the fighting the Dominion was taken on Oct. 20, Valenciennes on Nov. 2 and Mons on Nov. 11, a few hours before the armistice came into force.

Canada's part in the war would not be complete without mentioning the heroic work of the women. No matter how complete records may be, they can give only an imperfect impression of the services which Canadian women have rendered during the war. Over 2,400 women have gone overseas in the C. E. F., and have served in England, France, Egypt, Greece and Russia. Women commenced to take a share in agricultural work early in the war, and have worked on farms in all parts of the country. Between five and six thousand were employed in the Civil Service for the most part on work created by war. Women's clubs and societies have been organized all through the country to carry on special work, such as Red Cross work, etc. While we tell of the men and women who played by the civilians, who rose enlisted and fighting for King and

H.O. WRIGHT LEAVES
GOVERNMENT PARTY

Ottawa, May 27.—The short and modest but direct speech of H. O. Wright, member for South Battleford, in the house last night, in which he stated that his "war contract" with the government was over, and he would have to align himself "with the people," has produced a decided effect among the western group. Mr. Wright was a former Conservative, and he has given the government unwavering support. His speech last night was his maiden effort in the house. "I do not wish to prejudice," said he, "but I cannot see how I can support the tariff policy that any person must see will eventually be adopted by this party. An honorable minister has told us that it is upon the fiscal carrier with a sanitary system second to none that any camp has ever seen. From Valcartier the Division was moved to Camp Borden where it embarked for England on October 3, 1914. After three months additional training in England it landed in France. The second division was formed immediately and landed in France on September 14 when the Canadian Army Corps was formed. The formation of third division was authorized just before Christmas 1915, and the division was in France early in 1916. The fourth division joined the Canadian Corps in August 1916. The Canadian Cavalry Brigade was in France in 1916. After the completion of the Canadian Corps, the policy of the Dominion was to maintain a small number of divisions and keep them in full strength.

Thus did Canada answer the call. From the workshops and offices of her cities, from the lumber camps of the west, from the farms and orchards of the east, from the slopes of the Rockies, from the shores of the Hudson's Bay, from the mining valleys of British Columbia, from the prairies of the Yukon, and from the reaches of the St. Lawrence, the manhood of Canada hurried to arms.

They sought not the glory of conquest nor the rape of freedom, nor the loot of sacked cities, nor selfish ideal led them leave their homes and the comforts of civil life for the sufferings of war and the risk of death. They came forward free men and were unconstrained, with a simple resolve to lay down their lives, if need be, in defence of the Empire, the very existence of which, as they swiftly saw, was menaced by the most formidable military combination which had ever sprung to arms. The first contingent was born partly of the glory of adventure, but more of the spirit of self-sacrifice, and this spirit showed the deepest emotions of the Canadian people—their love of country, of liberty and of right. The total number of men enlisted in Canada from the beginning of the war to November 19, 1918 was 595,441 men.

RED CROSS TO
THE RESCUE

To serve the pioneer settlers of the Canadian prairie, the Red Cross has organized a corps of nurses, and a member of the Victoria Order of Nurses, left Calgary on Thursday, May 23, with \$500 in ready money for the use of the settlers and their dependents. The Red Cross has established in August a branch of the Canadian Red Cross in the town of the Alberta Provincial Hospital, and the Red Cross has been informed of its existence, and in fact that the colony has been since its formation without nursing or medical service of any kind. To meet the urgent condition prevailing in the outposts of the north, the Red Cross was immediately made for the Red Cross to leave for Poucecoupe. Her post of duty lies beyond the forty miles of musketry which separates the colony from the nearest neighboring white settlement. She is the first nurse to be sent out by the Provincial Red Cross definitely to establish a nursing service in the north.

"Country let us not forget the grand nobility to the call for more food supplies. On the farms the increase of crops for 1917 and 1918 was immense. The work of the following figures show the increase in acreage in the principal crops were:

| | acres 1917 | acres 1918 |
|--------|------------|------------|
| Wheat | 14,755,835 | 17,352,502 |
| Oats | 13,133,029 | 14,793,206 |
| Barley | 2,292,206 | 2,153,811 |

This increase was made with fewer men each year to carry on the work. In 1918 the number of men in the State was formed known as the Department of Soldier's Civil Re-establishment. The work of this Department is to see that the returned men are established in any work that they wish to take up. Disabled men are trained in some trade or profession in which their disability will not prove a handicap. Suitable pensions are paid to disabled soldiers the amount varying with regard to the disability. Those who depended for their living on soldiers or sailors killed in action are provided for by the government. The Government has also arranged a Soldiers' Land Settlement Board in which the Board buys the land for the soldiers who have twenty years to pay for it, only paying the interest each year.

This is but a brief outline of Canada's part in the Great War, but shows the suitability of the motto of the Canadian Army Corps: "Those in agreement seize victory by force."

EXAMINER'S REVIEW OF
PROVINCIAL MARKETS

Calgary, May 27th.

Cattle
Some steers of a little better quality than a week ago and a better demand from the packers lifted prices all round this week about \$1 per hundred on the best steers and cows at Calgary yards. Choice steers from \$15 to \$18.50 and a few extra ones at \$18.75. Choice cows and heifers from \$12 to \$14.50 and a few extra ones at \$15. Steers with any kill to them will bring from \$12.50 up. Receipts light and prompt clean-up on offerings. Some steers were taken out as feeders at prices up to \$11. These good light veal calves will bring around \$15. No bulls offered but will sell up to \$10.

Hogs
At Calgary the few arrivals after the Easter holiday at the same prices up to Wednesday when a few brought \$22.65. This was maintained Thursday. This morning there were not many on hand, but they sold at \$22.65.

Sheep
Keen competition on the picks which are received at Edmonton have kept the prices steady during the week at \$22.50. Buyers say the price is too high but they are paying it.

Butcher offerings at Calgary very scarce and prices probably unchanged, as packing houses are practically cleaned of fresh meat.

No market for the ordinary offerings at sales, and while a few heavy steams might be sold at a profit, good prices, there are no buyers for any numbers in sight at present.

Grain
Western Canada is experiencing good seedling weather, and wheat has practically all been sown and only the late grains to finish up. Prices on all grains have been keeping firm and while some consider prices too high, the premiums made regarding wheat for the next crop are keeping the optimism up.

Produce
Butterfat prices have been given another reduction this week, and at cream stations the price is 58 for extra, 55 and 52 for No. 1 and No. 2; at cream stations prices are 4c under and butter reduced to 30c for No. 1, and 30c for straight reduced; around 40c for No. 1 and fancy table butter around 35c. Predictions are for lower prices later. Potatoes are lower, quoted from \$80 to \$90 at steady prices. Eggs are around \$13.50.

Hay
Prices have dropped nearly \$1 a ton during the week, and are now quoted high on track at Calgary \$35 to \$40. Demand light.

No change in prices during the week, but the tone of the market is weak and tanners will not bid on offerings.

Furs
Market very bad, owing to great reductions at St. Louis sales. Price list not quoted for the present until conditions are more stable. When buying is resumed prices will be very greatly reduced even from last week's revised prices.

BULGARIA'S CROPS
BIGGEST IN HISTORY

Sofia, May 27.—Bulgaria's 1919 crop is being the greatest in the country's history, and those of 1920 promise even greater abundance. The country now has so much wheat and maize on hand that she is exporting part of it to Belgium and Poland. The present stocks of these cereals amount to nearly six billion pounds.

CANADA'S CLAIM
TOTALS \$1,871,000,000

Ottawa, May 27.—Canada's reparation claim against Germany for losses sustained by the country and by individual citizens during the war, has been forwarded to England for presentation at a conference of representatives of all parts of the British Empire soon to be held in London and subsequently at an inter-allied conference at Spa. The bill rendered by the Dominion is for a total of \$1,871,000,000.

REPORT ON GYMNASIUM UNITED STATES
MAY NEED FOOD FROM OVERSEAS

The Gymnasium Committee appointed at a meeting of the Humfringers Club and Business Men, held in the Presbyterian Social Rooms early this spring, held a report through the local press, trusting that all interested will know what we have done, so that when reorganization for next fall and winter's work is undertaken the data and estimates may be available. The Committee considers their obligations now disposed of and when further need is taken on a new Committee should be named.

We procured the use of the Armouries for Gymnasium purposes held at the Red Deer Great War Veterans, who were exceedingly agreeable and anxious to accommodate on the following terms:

1. That in the event of our Association requiring the use of the hall for entertainment or other purposes, we reserve the right to cancel any particular night or nights, of which due notice will be given to your Association.
2. That a qualified party will be in charge of each class, he or she to be responsible for the discipline of the class.
3. That the hall be left in a clean condition.
4. That as far as possible, rubber soled shoes be worn by all classes.
5. That as little artificial light be used as possible.

With regard to Clause 4, we do not object to ordinary shoes being worn, so long as they are clean, our idea being solely to protect the floor, which being waxed, is easily spoiled.

We are further regulated in the use of the Armouries by the Superintendent of Military District No. 13, by the following notices from Lt. Col. Campbell:

"I am directed by the G.O.C., M.D. 13, to inform you that it is not possible at the present time to give you any assurance that the privileges you are enjoying in the Red Deer Armouries can be continued after the building is again used for military purposes. This is a question that will have to be brought up at a future date as the occasion requires."

We estimated that it would take \$350 to give the Gymnasium reasonable and adequate equipment. This amount can be readily arranged by public subscription.

The estimates and data may be had at any time from the chairman.

COULD HARDLY MOVE
HER ARMS, SHE SAYS

Mrs. Arthur Olson was Almost Helpless—Takes Time to Get Well and Happy.

"Come in. I was hoping you would call for me," said Mrs. Arthur Olson of 812 Pender street, East Vancouver, B.C., when the Tanlac representative called to see how she was getting on with the medicine. "Ever since I came from England a few months ago I have been in poor health," she continued. "My stomach was out of order, and I was always feeling sick. I had no appetite and ate scarcely enough to keep a bird alive. I had to be continually taking medicine for constipation, and was driven almost frantic with headache, when I would have to lie down for hours with cold water bandages on my forehead. I had pains in the small of my back that hurt me, especially whenever I stopped over, and rheumatism in my limbs and shoulders so bad that for three weeks I could scarcely move my arms. I had to give up all heavy work, and it was as much as I could do just to straighten up the house. I got very nervous and rarely got to sleep before two or three in the morning. I was simply helpless; to walk even a short distance would tire me out, and I just wanted to lie down all the time."

"You can see by all these bottles how many kinds of medicine I have taken in my efforts to get well. But Tanlac did what all the others failed to do, and now, after taking only three bottles, I am well and happy. I first of all gave me an appetite and settled my stomach so that my food agreed with me perfectly. I lost all signs of biliousness and the pains in my back and limbs disappeared. I am no longer constipated, and haven't a headache since I finished my first bottle. My nerves are much better, and I sleep as well as I ever did in my life. I have lost that tired feeling, and in fact am so full of energy that I want to be out and about all the time. I walked for an hour the other day, and I never even got tired. I just think Tanlac is splendid and I shall always recommend it."

Tanlac is sold in Red Deer by Galt-Cornett Drug & Book Co., and by the leading druggist in every town.

OBJECTION IS TAKEN TO
ONE PER CENT. TAX

Montreal, May 26.—At a meeting of representative members of the Canadian Manufacturers' Association held at the Windsor Hotel, yesterday, the one per cent. sales tax was especially the subject of discussion. It was pointed out that it was a burden to the consumer.

W. W. Birks, of Henry Birks & Sons, jewelers, strongly criticized the tax on gold objects for personal and household use, which he considered to be so severe as not only to "check trade," but also to tend to "kill tourist business."

An executive committee of the Canadian Manufacturers' Association for the province of Quebec was appointed to present budget objections to the government.

Special Order Tailoring

Special Orders—that's a short name for the wholesale—
Custom Tailoring. Service of the Semi-ready shops.
It's a system of individual custom tailoring originated over 20 years ago to serve and to satisfy every Semi-ready customer.
To give the exact shape and pattern of cloth a man likes best:
To tailor the garment to measure in the style he desires;
To express the suit on a prompt four-day schedule—four days after the order reaches the Semi-ready tailor shops.
That's service; it's great service.

BIRTHS, MARRIAGES,
DEATHS IN 1919

The following report of the Vital Statistics Branch of the Department of Public Health enumerates and classifies the number of births, marriages and deaths which occurred in the province of Alberta during the year 1919, and which were registered with the department.

There were 14,139 births, the number being 760 less than in the previous year. There is however no decline in the general trend of the birth rate as the number of births for 1918 was abnormal, the number for the year 1919 being higher than for any previous year with the exception of 1918. With regard to the racial origin of the children, last year's report stated that after the war, the number of children born of British parents would probably increase. This year's figures bear out this forecast, as although there is a small decrease in the number of children born of Canadian and U.S.A. parents, and a larger decrease in those of foreign parentage, the number of those of British parentage is exactly the same as the previous year, viz., 30,678. The number of male children born was 7317 and female children 6813.

9436 persons were married during the year, that is, there were 4718 marriages, an increase of 478 over the previous year. Practically the whole of this increase being amongst Canadians and British. 24 brides and no bridegrooms were between the ages of 15 and 16 years, whilst 32 grooms and 13 brides were 60 years of age and more. As in previous years the most popular marrying age was from 20 to 24 for the brides and from 25 to 29 for the grooms.

5607 persons died during the year, this being a decrease of 2117 compared with the year 1918, when 7724 persons died, the death rate this year being 9.33 per 1000 inhabitants compared with 12.15 in the year 1918. Epidemic influenza is still responsible for this high death rate which in the average alone accounted for 8 per 1000 inhabitants. There were 1049 deaths from this cause, practically all occurring in the first five months of the year and being the tail end of the great epidemic of 1918. Pneumonia and bronchopneumonia as usual were responsible for the great number of deaths from ordinary causes, the number being 345. Tuberculosis of the lungs accounted for 278 deaths, being a reduction of 57 from the previous year, whilst Diphtheria and Enteritis, which was very prevalent during August and September, caused 257 deaths, an increase of 59 over the previous year. Sleeping sickness, a disease practically new to the province, met its appearance, and was the cause of 8 deaths.

Infantile mortality is still increasing, the deaths of children under 1 year of age numbering 1660, the rate per 1000 births for this year being 110.3 as against 107.1 for 1918 and 97.3 for 1917. It is evident that all the child welfare work that has been undertaken is necessary. A perusal of the table will show that a large percentage of these children died from preventable diseases and causes which could be avoided if the parents possessed more knowledge of the hygiene of infancy.

There were 39 deaths by suicide, 14 by murder or manslaughter and 232 by accident. The still births numbered 314 compared with 335 for the previous year.

The Aftermath of Action

(By Henry Chas. Suter)

TESTED AND TRIED

Not much of a life had he lived. He knew it ere others spoke of it. His days were filled with stultic acts and his nights with debauchery crammed. He waited his chance to retrieve the past and it seemed to come with the crisis. When he responded to the call, few felt concerned about him in consequence of his past conduct and none watched him go to his rank. Ere long he reached the struggle and strife, and now follows the history of his testing and trying. At first he found himself being cast into the fiery furnace of war, and he seemed to feel again and again that he had been merely flung there to feed its flame. Throughout this first experience of the process, however, he knew that it was the initial step whereby he was being torn like the stubborn mule that he was, through the fire that a strange softness of pity and compassion crept within him. It seemed like a refining fire that tore him from head to foot, and the process was one wherein he became more kind and brotherly toward others both in camp and trench.

The second phase of his testing and trying came a little later, when he felt that his soul was subjected to the strange hammering upon an anvil like unto the wroughten blade. The test sometimes made him tremble and he wondered whether they would cast him out as useless, for he knew of what mettle awards were made, and he found that in this respect he was not wanting, for his soul eventually became keen and strong in purpose.

The testing continued in another process as when iron is plunged while still hot and glowing into the icy chill water. Thus as the edge of a blade is tempered by this freezing process, so this man found his temper was being tested even in the cold.

ROYAL
YEAST CAKES

There is more energy in a pound of good bread made in the home with Royal Yeast Cakes than in a pound of meat. Bread making is a simple operation and requires no previous experience. Full instructions in Royal Yeast Bake Book, mailed free on request.

AUTOPSY SHOWS
CARRANZA DID
NOT KILL SELF

Surgeons Find He Was Struck by Two Rifle Bullets.

Vera Cruz, May 25.—Reports of an autopsy performed on the body of Venustiano Carranza led to agree with the claim of Rodolfo Herrero that the president committed suicide rather than be taken captive. It is asserted in official quarters.

Surgeons who conducted the autopsy, it is declared, found Carranza had been struck by two rifle bullets, one of which penetrated his breast and the other his abdomen. The bullets entered from in front, and it was the conclusion of those who witnessed the operation that the president had been assassinated. It is said.

City of Mexico, May 25.—President Venustiano Carranza committed suicide rather than be taken prisoner, according to a message given out at the headquarters of General Gonzales. It purports to have been sent from Cerro Azul, State of Puebla, the morning of Thursday, May 20, by Col. Rodolfo Herrero, who, previous reports stated, was responsible for Senor Carranza's death.

COAL SHIPMENTS
AT DRUMHELLER

2,000 TONS A DAY

Coal shipments from the Drumheller valley are now moving freely, the output Wednesday being 2,000 tons. This is considerably larger than the average daily shipment for this time of the year. A fair percentage of this was sent to Calgary, and local stocks are now well up to normal.

Operators are much interested in the forthcoming session in Calgary of the Railway commission, who will specially deal with the question of a summer freight rate on coal. A mass of evidence is being collected by them for presentation to the commission, the main feature of this being that it is imperative that a differential rate be arranged during the summer months if the coal industry, or the province to be placed on a sound basis as far as meeting United States competition on the Winnipeg and other markets is concerned.

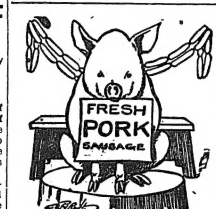

Although no definite information has yet been received as to when the commission will be in Calgary, it is expected that it will be somewhere about June 5.

MIDDLE CLASSES ARE
BEARING THE BURDEN

Thinks Capt. Robt. Pearson Regarding the Government's New Tax

Capt. Robert Pearson, who has just returned from a visit east, took occasion on his return to severely attack the Union government for the institution of the new taxation. He thought the new taxes would fall most heavily on the middle classes, and said that the increase of taxation under the war profits tax from seven to ten per cent was an aid to the profiteers. Mr. Pearson remarked that Union government members are anxious to ascertain what the sentiment is in the west, which they seem to think is beginning to gain the balance of power. Hon. Mackenzie King, the opposition leader in parliament, Mr. Pearson said, has not shown the strength in debate that was expected of him.

Mr. Pearson, who occupies one of the cross benches in the Alberta legislature, said he met members of the cabinet of Premier Hardy, head of the Farmer-Labor coalition government in Ontario, and said that they impressed him as able men, and that the labor members "appear to be exerting influence in the government there."

My House is All Clean Let's Go for a Drive

"What, too tired, again? You really should own an Apex. It is positively absurd to slave and drudge keeping your home clean and attractive and then be too tired to enjoy it or to go anywhere."

With the Apex every kind of cleaning is done with thoroughness and time-saving ease. The exclusive inclined nozzle pokes into hard-to-reach places, under heavy furniture and clear up to baseboards. The exclusive divided nozzle cleans evenly across its entire 13 inch width. Only in the Apex cleaner will you find these exclusive features.

LOCAL NEWS

Now for a little warm weather.

For ambulance (Stone's) call 172, 173.

It is time to get busy with that law mower.

Alexandra Club dance, next Wednesday night.

Mrs. Ed. Bryan, Wetaskiwin, was down on Wednesday.

Seeding is pretty well completed in the Red Deer district.

Mrs. Margaret Kingston left Thursday for a six weeks visit with relatives at Moosejaw.

Mrs. McArthur, of the Western General Electric Co. office staff, spent the holiday with friends in Edmonton.

Mrs. McLevin, Robinson and Dunlop brought home a nice mess of 100 fish from a trip to the Clearwater over the holiday.

Mr. Chas. Bean, C. P. R. pumpman, had a bad attack the other night, but is improving nicely, his friends will be glad to hear.

The regular meeting of the Sons of England will be held in the Alexandra Hall on Thursday evening at 8 p.m. Special business.

Mrs. McMillan, Mrs. McVicar, and Mrs. Scamman represented the Red Deer union at the W.C.T.U. district convention at Wetaskiwin last week.

Mr. W. F. Kenaley, Government Telephone agent at Red Deer, and Mrs. Kenaley were visiting Mrs. Kenaley's folks in Edmonton over the holiday.

Mr. and Mrs. John Dunlop, from Lethbridge, are spending part of their honeymoon with Mr. Dunlop's sister, Mrs. Marston, and Corl, Marston, A. P. P.

Mr. John Logan is at the Memorial Hospital with an injured knee. He was saving wood when a block struck him on the left knee, putting it in bad shape.

Do not forget the bazaar of St. Luke's W. A. at the Alexandra Hall, Saturday afternoon, 5th of June. There will also be home made cooking on hand to sell.

The great one-cent sale at the Gaetz-Cornett Drug & Book Co.'s store last week was better than ever. Each year it increases in volume. Nearly everything advertised was sold out by Saturday night, when there was a big rush for goods.

Opposition is the life of trade. Farmers, we want your cream in our business. The Swift Canadian Co. are paying the highest cash prices for cream and poultry. E. R. Hill is handling the goods and will give you a square deal every time. Bring us your poultry every day except Saturday.

The "Hard Times" social at the Methodist Church on Friday night last was a decided success in every way, the receipts being over \$50.00. The fish pond, candy and ice cream stalls were sold out. Dr. J. B. Long took the "Cake" first prize, for having the best costume. He immediately offered it for sale by auction, and by his persuasive methods realized the sum of \$3.25 for the cake. N. M. Burnett was kept busy telling fortunes and her costume was excellent. Through oversight on the part of the management, she did not compete for the "Cake." The choir wish to extend their very hearty thanks to all those who so kindly contributed in various ways to the success of the evening.

MACHINE GUNNERS' ASSOCIATION

Officers and men, who were members of the Canadian Machine Gun Corps, Overseas, are requested to send in their names to the Adjutant, 12th Canadian Machine Gun Brigade, Calgary.

NOTICE TO CREDITORS AND CLAIMANTS

IN THE MATTER OF THE Estate of James Faris, also known as James Faris Junior, late of Sacramento, in the State of California, United States of America, formerly of Louisa, Alberta, Deceased.

NOTICE IS HEREBY GIVEN that all persons having claims as creditors or otherwise against the Estate of the said James Faris, who died on or about the 30th August, 1919, at Sacramento, California, are required to file with the undersigned executor, Thomas J. Cox, physician, at the office of his attorneys, Messrs. Devlin and Devlin, California Fruit Building, Sacramento, California, on or before the 15th day of July, A.D. 1920, a full statement in writing duly verified, of their claims and of any securities held by them and the nature of their claims.

AND FURTHER TAKE NOTICE that after the said date, the executor will proceed to distribute the assets of the Estate among the parties entitled thereto, having regard only to the claims of which notice shall have been so filed, or which have been brought to his knowledge.

DATED at Calgary, Alberta, this 10th day of May, A.D. 1920.

THOMAS J. COX, Executor.

by Loughheed, Bennett & Company per: J. C. BROKOVSKI, his solicitors.

WANTS MARRIAGE ANNULLED OVER CHURCH REASONS

Montreal, June 1.—On the ground that a valid marriage for Catholics can only be contracted in Quebec before a priest of their own faith, Dame Mary Eugénie Duggan, is seeking the annulment of her marriage to George Thos. Brennan, celebrated December 13, 1919, before the rector of All Saints' (Anglican) church. Petition was granted to petition for an annulment by Mr. Justice Bruneau, Monday morning. The husband did not answer the suit. Dame Duggan swears her marriage was annulled by an ecclesiastical decree of May 14, 1920. She also swears that she is a Catholic, but makes no mention of the faith of her husband.

NOTICE

After June 15th, anyone found owning or harboring a dog without a license, will be prosecuted. Chas. Anderson, License Inspector. June 2, 2w.
